

# Automation Worldwide

## Plants, Systems and Engineering from Baumüller

Baumüller is your competent partner for turnkey motion control and automation solutions. We supply and engineer entire installations, add-ons, extensions, integration and retrofit solutions – including assembling, installations, commissioning and after-sales services.

The Baumüller Group is one of the leading manufacturers of electric motion control and automation solutions. „Baumüller Anlagen-Systemtechnik“ is the engineering house of the Baumüller Group.

Serving well-known machinery and installation manufacturers we supply drive and automation solutions all over the world with a volume of approx. 5,000 control cabinets a year.

We'll be your partner for customized solutions, assembly, maintenance and service!
